

Protect the Penguins!

Amazing Penguin Facts!

- Penguins are **birds**, but they cannot fly. They swim super fast!
- Penguins live in cold places like Antarctica.
- A group of penguins is called a "**waddle**"!

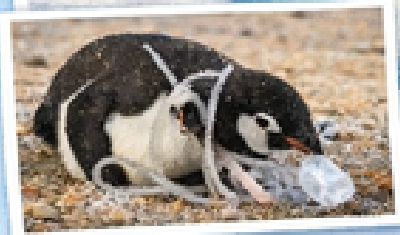

Why Do Penguins Matter?

- Penguins keep the ocean healthy.
- They are part of the food chain.
- Penguins help us learn about **climate change**.

Why Should We Protect Penguins?

- Melting ice is taking their homes.
- Pollution and plastic can harm penguins.
- If penguins **disappear**, other animals are in trouble!

How Can Kids Help?

- Use less plastic.
- Save energy.
- Be kind to nature.

Penguins waddle on land
but swim super fast!
