

How to make snow dough

Water

200g Baking Soda

200g Cornflour

Instructions

Mix the baking soda and the cornflour together.

Add a spoon of water, then mix, add a little more water if needed until the mixture is easy to mould into a ball.

Add sticks, pipe cleaners, buttons, stones or other loose parts to add to the snowman.

Store in an air tight container in the fridge or freezer after use.

Always supervise children and do not let them eat the dough.
