

Fun Bee Facts

- **Bee Dance:** Bees do a special "waggle dance" to tell their friends where to find the best flowers!
- **Super Speed:** A bee beats its wings 200 times every single second—that is why they make a buzzing sound!
- **Five Eyes:** Bees have five eyes! They have two big eyes on the side of their head and three tiny eyes on top.
- **Honey Power:** To make one little jar of honey, bees have to fly to millions of colorful flowers.
- **No Sleep:** Bees stay awake all summer long and never sleep!
- **Six Legs:** Just like all insects, every bee has six legs.
- **Smelly Feet:** Bees leave smelly footprints on flowers so other bees know they already took the food.
- **Favorite Color:** Bees love the color blue best, but they cannot see the color red at all.
- **Two Stomachs:** A bee has one stomach for its own food and a secret second stomach just for carrying flower juice.
