

Make a Bird Feeder

What You Need:

- Pipe cleaner
- Cereal loops

Let's Get Started!

This is a super simple activity to set up and young children develop many skills during the process.

Simply thread the pipe cleaners with cereal and tie up and hang from trees/bushes.

Threading for early years develops crucial skills like fine motor control, hand-eye coordination, and concentration, strengthening finger muscles needed for writing and self-care tasks (buttons, laces) and learning patience.
